Oral lesions in rhesus monkeys associated with infection by simian AIDS retrovirus, serotype-I (SRV-1) (Schiødt et al). 1988;65:50-5
The prevalence of AIDS-associated oral lesions in a cohort of patients with hemophilia (Bolski and Hunt). 1988;65:406-10

Acyclovir
Treatment of oro-facial herpes simplex infections with acyclovir: a review (Perna and Eskinazi). 1988;65:689-92

Adenocarcinoma
Adenoid cystic carcinoma of the salivary glands: an immunohistochemical analysis (Chen et al). 1988;65:316-26
Oncocytic adenocarcinoma of salivary glands (Goode and Corio). 1988;65:61-6

*January, pp. 1-134; February, 135-266; March, 267-378; April, 379-498; May, 499-640; June, 641-804.

Adenoids, pathology
Adenoid cystic carcinoma of the salivary glands: an immunohistochemical analysis (Chen et al). 1988;65:316-26

Adipose tissue
Repair of palatal defects with unlined buccal fat pad grafts (Hai). 1988;65:523-5

Administration, topical
Performance of hydroxypropyl cellulose film former in normal and ulcerated oral mucosa (Rodu and Russell). 1988;65:699-703

Africa
Mandibular African histoplasmosis: Imitation of neoplasia or giant-cell granuloma? (Adekeye et al). 1988;65:81-4

Alveolar process
Lingual metastasis of alveolar soft-part sarcoma (Porter et al). 1988;65:742-4

Alveolar ridge augmentation
Ridge reconstruction with hydroxylapatite. Part 1: anatomy of the residual ridge (Mercier). 1988;65:505-10
Ridge reconstruction with hydroxylapatite. Part 2: ridge reconstruction based on residual anatomic structure (Mercier). 1988;65:641-52

Ameloblastoma
Oral granular cell tumors: a clinicopathologic and immunocytochemical study (Stewart et al). 1988;65:427-35
The role of magnetic resonance imaging in the diagnosis and management of ameloblastoma (Heffez et al). 1988;65:2-12

Amelogenesis imperfecta
Autosomal recessive rough hypoplastic amelogenesis imperfecta: a case report with clinical, light microscopic, radiographic, and electron microscopic observations (Ooya et al). 1988; 65:449-58

Anatomy, regional
Ridge reconstruction with hydroxylapatite. Part 1: anatomy of the residual ridge (Mercier). 1988;65:505-10
Ridge reconstruction with hydroxylapatite. Part 2: ridge reconstruction based on residual anatomic structure (Mercier). 1988;65:641-52
Statistical evaluation of the position of the mandibular foramen (Hetson et al). 1988;65:32-4

Anemia, hypochromic
Glossodynia, iron deficiency anemia, and gastrointestinal malignancy (Gallagher et al). 1988;65:130-3

Anesthesia, general
Accurate radiographs with intravenous sedation or general anesthesia (Wallace and Cohen). 1988;65:240-1

Anesthesia, intravenous
Accurate radiographs with intravenous sedation or general anesthesia (Wallace and Cohen). 1988;65:240-1

Antibiotics
Bacteremia following intraoral suture removal (King et al). 1988;65:23-8
The patient with chronic renal failure who is undergoing dialysis or renal transplantation: another consideration for antimicrobial prophylaxis (Naylor et al). 1988;65:116-21
Prophylactic penicillin versus penicillin taken at the first sign of swelling in cases of asymptomatic pulpal-periapical lesions: a comparative analysis (Morse et al). 1988;65: 228-32

Antibodies, monoclonal
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15

Anticoagulants
Circulating lupus anticoagulant in a surgical temporomandibular joint patient: report of a case (Carlson and Catone). 1988;65:404-5
Antigen-antibody reactions
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15
Antineoplastic agents
Impact of improved dental services on the frequency of oral complications of cancer therapy for patients with non-head-and-neck malignancies (Sonis and Kunz). 1988;65:19-22
Resolution of oral hairy leukoplakia during treatment with azidothymidine (Phelan and Klein). 1988;65:717-20
Antiviral agents
Treatment of oro-facial herpes simplex infections with acyclovir: a review (Perna and Eskinazi). 1988;65:689-92
Arch; *see* **Dental arch**
Arteriovenous malformations
Treatment of a central arteriovenous malformation of the mandible with cyanoacrylate: a 4-year follow-up (Shultz et al). 1988;65:267-71
Arthrography
Double-contrast arthrography of the temporomandibular joint: role of direct sagittal CT imaging (Heffez et al). 1988;65:511-4
Temporomandibular joint arthrography without fluoroscopy (Abramovitch et al). 1988;65:387-95
Arthrogryposis
Arthrogryposis multiplex congenita of the temporomandibular joint (Hodgson et al). 1988;65:289-91
Arthropathy, neurogenic
Hemophilic arthropathy of the temporomandibular joint: review of the literature, a case report, and discussion (Nishioka et al). 1988;65:145-50
Arthroscopy
Diagnostic arthroscopy of the temporomandibular joint. Part II: arthroscopic findings of arthrographically diagnosed disk displacements (Blaustein and Heffez). 1988;65:135-41
Atrophy
Ridge reconstruction with hydroxylapatite. Part 1: anatomy of the residual ridge (Mercier). 1988;65:505-10
Autotransplant; *see* **Transplantation, autologous**
Azidothymidine
Resolution of oral hairy leukoplakia during treatment with azidothymidine (Phelan and Klein). 1988;65:717-20

B

Bacteria
Changes in the oral microflora in patients with acute leukemia and related disorders during the period of induction therapy (Wahlin and Holm). 1988;65:411-7
Clinical and laboratory assessments of camphorated monochlorophenol in endodontic therapy (Koontongkaew et al). 1988;65:757-62
Bacterial infection
Bacteremia following intraoral suture removal (King et al). 1988;65:23-8
Bandages
A postsurgical pressure dressing technique (Ragno and Nespeca). 1988;65:165-6
Beckwith-Wiedemann syndrome
Macroglossia and ankyloglossia in Beckwith-Wiedemann syndrome (Patterson et al). 1988;65:29-31
Bicuspid
Microdontia of a mandibular second premolar (Ufomata). 1988;65:637-8 (Roentgeno-oddities)
Biopsy
The gingival biopsy in the diagnosis of thrombotic thrombocytopenic purpura (Nishioka et al). 1988;65:580-5
Oral Kaposi's sarcoma: a clinicopathologic study of 23 homosexual and bisexual men from the New York metropolitan area (Lumerman et al). 1988;65:711-6
Birth defects; *see* **Abnormalities**
Bisexuality
Oral Kaposi's sarcoma: a clinicopathologic study of 23 homosexual and bisexual men from the New York metropolitan area (Lumerman et al). 1988;65:711-6
Blood transfusion, autologous
Preoperative donation of autologous blood: technique, experience, and community applications (Triplett et al). 1988;65:286-8
Bone and Bones, radiography
Bone scintigraphy of vascularized bone transfer in maxillofacial surgery (Kärcher et al). 1988;65:519-22
Detection of three-walled infrabony defects by subtraction radiography (Putnins et al). 1988;65:102-8
Bone marrow diseases
Disturbances in dental development after total body irradiation in bone marrow transplant recipients (Dahllöf et al). 1988;65:41-4
Osteoporotic bone marrow defect: radiographic features with pathogenic factors (Schneider and Fraenkel). 1988;65:127-9
Bone screws
Rigid fixation: a review of concepts and treatment of fractures (Jones and Van Sickels). 1988;65:13-8
Bone wires
Monocortical wire osteosynthesis for the midface and lower jaw (Randzio and Spenler). 1988;65:515-8
Rigid fixation: a review of concepts and treatment of fractures (Jones and Van Sickels). 1988;65:13-8
Brain stem
Trismus caused by paradoxical activity of jaw-closing muscles in brain stem tuberculoma (Verma et al). 1988;65:675-8

C

Calcinosis
Massive calcification following tuberculosis (Wright). 1988;65:262-4
Calcium hydroxide
The tissue reactions after capping of dog teeth with calcium hydroxide experimentally crammed into the pulp space (Tziafas and Molyvdas). 1988;65:604-8
Calcium oxalate
Oral manifestations of oxalosis secondary to ileojejunal intestinal bypass (Lapointe and Listrom). 1988;65:76-80
Calculi
Rhinolithiasis: a review (Appleton et al). 1988;65:693-9
Tonsillolith (Westmore and Hupp). 1988;65:783 (Roentgeno-oddities)
Calculus; *see* **Dental calculus**
Camphor
Clinical and laboratory assessments of camphorated monochlorophenol in endodontic therapy (Koontongkaew et al). 1988;65:757-62
Canada
Radiographic examination of comprehensive care patients in U.S. and Canadian dental schools (Kantor). 1988;65:778-81
Candidiasis, oral
Dentinal candidiasis in cancer patients (Damm et al). 1988;65:56-60
Oral candidal infection as a sign of HIV infection in homosexual men (Syrjänen et al). 1988;65:36-40
Carcinogens, animals
Inhibition of hamster buccal pouch carcinogenesis by green coffee beans (Miller et al). 1988;65:745-9

Carcinoma
Dentinal candidiasis in cancer patients (Damm et al). 1988; 65:56-60
Facial trismus and myofascial pain associated with infections and malignant disease: report of five cases (Cohen and Quinn). 1988;65:538-44
Merkel cell carcinoma arising in the oral mucosa (Mir et al). 1988;65:71-5
Carcinoma, squamous cell
Herpes simplex virus type 1 proteins in human oral squamous cell carcinoma (Kassim and Daley). 1988;65:445-8
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15
Oral squamous papillomas: detection of HPV DNA by in situ hybridization (Eversole and Laipis). 1988;65:545-50
Carcinoma, therapy
Impact of improved dental services on the frequency of oral complications of cancer therapy for patients with non-head-and-neck malignancies (Sonis and Kunz). 1988;65:19-22
Carcinoma in situ
Leukoplakia and carcinoma in situ synchronously associated with invasive oral/oropharyngeal carcinoma in Rochester, Minn., 1935-1984 (Bouquot et al). 1988;65:199-207
Caries; *see* **Dental caries**
Cell line
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15
Cellulose
Performance of hydroxypropyl cellulose film former in normal and ulcerated oral mucosa (Rodu and Russell). 1988;65:699-703
Cheek, pathology
Buccal hemangioma with phleboliths: report of two cases (Sano et al). 1988;65:151-6
Chemical injury
Covert self-mutilation of oral tissues and skin by mechanical and chemical means (Barrett and Buckley). 1988;65:685-8
Chin
Duplication of mental nerve in a patient with cleft lip-palate and rubella syndrome (Goodday and Precious). 1988;65:157-60
Relationship of mandibular anterior tooth apices to genial muscle attachments (Zhang et al). 1988;65:653-6
2-Chlorophenol
Clinical and laboratory assessments of camphorated monochlorophenol in endodontic therapy (Koontongkaew et al). 1988;65:757-62
Cleft lip
Duplication of mental nerve in a patient with cleft lip-palate and rubella syndrome (Goodday and Precious). 1988;65:157-60
Cleft palate
Duplication of mental nerve in a patient with cleft lip-palate and rubella syndrome (Goodday and Precious). 1988;65:157-60
Cocaine
Dental management of the cocaine addict (Friedlander and Gorelick). 1988;65:45-8
Coffee
Inhibition of hamster buccal pouch carcinogenesis by green coffee beans (Miller et al). 1988;65:745-9
Collagen
The effect of collagen and indomethacin on inflamed dental pulp wounds of baboon teeth (Oguntebi et al). 1988;65:233-9
Community health services
Preoperative donation of autologous blood: technique, experience, and community applications (Triplett et al). 1988; 65:286-8
Complement, physiology
Complement activation as a possible in vitro indication of the inflammatory potential of endodontic materials (Serene et al). 1988;65:354-7
Comprehensive dental care
Radiographic examination of comprehensive care patients in U.S. and Canadian dental schools (Kantor). 1988;65:778-81
Congenital defects; *see* **Abnormalities**
Correction
Cyclosporin-induced gingival overgrowth: correlation with dental plaque scores, gingivitis scores, and cyclosporin levels in serum and saliva (McGaw et al). (1987;64:293-7). 1988; 65:684 (Correction)
The effect of collagen and indomethacin on inflamed dental pulp wounds of baboon teeth (Oguntebi et al) (1988;65:233-9). 1988;65:473 (Correction)
Craniomandibular dysfunction
Emission imaging of patients with craniomandibular dysfunction (Kircos et al). 1988;65:249-54
Craniosynostoses
Craniofrontonasal dysplasia: phenotypic expression in females and males and genetic considerations (Grutzner and Gorlin). 1988;65:436-44
Crohn disease
Caries risk in patients with Crohn's disease: a pilot study (Bevenius). 1988;65:304-7
Cross reactions
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15
Cyanoacrylates
Cyanoacrylate as a retrofilling material (Barkhordar et al). 1988;65:468-73
Treatment of a central arteriovenous malformation of the mandible with cyanoacrylate: a 4-year follow-up (Shultz et al). 1988;65:267-71
Cyclosporins
Cyclosporine-induced gingival overgrowth: an ultrastructural stereologic study (McGaw and Porter). 1988;65:186-90

D

Data interpretation, statistical
Statistical evaluation of the position of the mandibular foramen (Hetson et al). 1988;65:32-4
Deformities; *see* **Abnormalities**
Delirium
Consent for dental therapy in severely ill patients (Friedlander et al). 1988;65:178-82
Delta infection
Review of hepatitis non-A, non-B: the potential hazards in dental care (Fagan et al). 1988;65:167-71
Dementia
Consent for dental therapy in severely ill patients (Friedlander et al). 1988;65:178-82
Dens in dente
Dens in dente (Weisz and Dohan). 1988;65:264 (Roentgenoddities)
Dental arch
Dental and mandibular arch widths in three ethnic groups in Texas: a radiographic study (Nummikoski et al). 1988; 65:609-17
Dental calculus
Rhinolithiasis: a review (Appleton et al). 1988;65:693-9
Tonsillolith (Westmore and Hupp). 1988;65:783 (Roentgenoddities)
Dental caries
Caries risk in patients with Crohn's disease: a pilot study (Bevenius). 1988;65:304-7
A clinical comparison of xeroradiography and film radiography for the detection of proximal caries (White et al). 1988; 65:242-8
A clinical comparison between xeroradiography and film radiography for the detection of recurrent caries (Gratt et al). 1988;65:483-9
Clinical indicators of radiographically detectable dental diseases in the adult patient (Douglass et al). 1988;65:474-82

Dental pulp
An evaluation of etiologic factors in 382 patients treated in a postgraduate endodontic program (Saad and Clem). 1988; 65:91-3
Dental pulp capping, animal
The tissue reactions after capping of dog teeth with calcium hydroxide experimentally crammed into the pulp space (Tziafas and Molyvdas). 1988;65:604-8
Dental pulp cavity
The use of ultrasonic instrumentation in the cleansing and enlargement of the root canal (Yamaguchi et al). 1988; 65:349-53
Dental pulp diseases
The effect of collagen and indomethacin on inflamed dental pulp wounds of baboon teeth (Oguntebi et al). 1988;65: 233-9
Dental pulp test
Electric pulp testing with examination gloves (Kolbinson and Teplitsky). 1988;65:122-6
Deoxyribonucleases
Oral squamous papillomas: detection of HPV DNA by in situ hybridization (Eversole and Laipis). 1988;65:545-50
Depression
Consent for dental therapy in severely ill patients (Friedlander et al). 1988;65:178-82
Dermoid cyst
Tooth in an ovarian cystic teratoma (Kitamura and Inokuchi). 1988;65:495-7 (Roentgeno-oddities)
Diagnostic imaging
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part I: description of the technique (Chilvarquer et al). 1988;65:626-31
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part II: positioning with the use of patient data (Chilvarquer et al). 1988;65:632-6
Use of a "sandwich" technique to control image geometry in clinical studies comparing intraoral xeroradiographs and E-speed films (Ludlow et al). 1988;65:618-25
Diagnostic services
Survey of tissue-diagnostic services in United States dental schools—1985 (Miller and Fantasia). 1988;65:225-7
Dialysis
The patient with chronic renal failure who is undergoing dialysis or renal transplantation: another consideration for antimicrobial prophylaxis (Naylor et al). 1988;65:116-21
Digital radiography; *see* **Radiographic image enhancement**
Diltiazem
Gingival overgrowth induced by diltiazem: a case report (Bowman et al). 1988;65:183-5
Disease models, animal
Oral lesions in rhesus monkeys associated with infection by simian AIDS retrovirus, serotype-I (SRV-1) (Schiødt et al). 1988;65:50-5
Dissection
Patterns of innervation of the maxillary first molar: a dissection study (Loetscher and Walton). 1988;65:86-90
DNA; *see* **Deoxyribonucleases**
Down's syndrome
Bone trabecular pattern analysis in Down's syndrome with the use of computed panoramic tomography with a laser scan system: quantitative analysis with the power spectrum method (Kashima et al). 1988;65:366-70
Dressings; *see* **Bandages**
Drug abuse; *see* **Substance abuse**
Drug effects
Cyclosporine-induced gingival overgrowth: an ultrastructural stereologic study (McGaw and Porter). 1988;65:186-90
Gingival overgrowth induced by diltiazem: a case report (Bowman et al). 1988;65:183-5
Dyskeratosis congenita
Dyskeratosis congenita: report of a case and review of the literature (Ogden et al). 1988;65:586-91
Dysplasia
Craniofrontonasal dysplasia: phenotypic expression in females and males and genetic considerations (Grutzner and Gorlin). 1988;65:436-44

E

Electric stimulation
Electric pulp testing with examination gloves (Kolbinson and Teplitsky). 1988;65:122-6
Electron microscopy; *see* **Microscopy, electron**
Electron probe microanalysis
Silver accumulations in periapical granulomas: report of five cases using the scanning electron microscope, the electron microprobe, and other complementary methods (Zmener and Dominguez). 1988;65:94-100
Emergency medical services
Consent for dental therapy in severely ill patients (Friedlander et al). 1988;65:178-82
Enamel hypoplasia
Autosomal recessive rough hypoplastic amelogenesis imperfecta: a case report with clinical, light microscopic, radiographic, and electron microscopic observations (Ooya et al). 1988; 65:449-58
Eosinophilic granuloma
Eosinophilic granuloma (Duncan et al). 1988;65:736-41
Equipment
Vertical tomography of the temporomandibular joint with the use of a dental chair and intraoral x-ray unit (Ludlow). 1988;65:358-65
Errata; *see* **Corrections**
Ethnic groups
Dental and mandibular arch widths in three ethnic groups in Texas: a radiographic study (Nummikoski et al). 1988; 65:609-17

F

Facial bones, surgery
Bone scintigraphy of vascularized bone transfer in maxillofacial surgery (Kärcher et al). 1988;65:519-22
Monocortical wire osteosynthesis for the midface and lower jaw (Randzio and Spenler). 1988;65:515-8
Fetus
Issues in dental and surgical management of the pregnant patient (Fiese and Herzog). 1988;65:292-7
Fibrous dysplasia of bone
Clinicopathologic study of cemento-osseous dysplasia producing cysts of the mandible: report of four cases (Higuchi et al). 1988;65:339-42
Flare-up phenomenon
The flare-up phenomenon in endodontics: a clinical perspective and review (Matusow). 1988;65:750-3
Foreign bodies
Unusual object in the infratemporal fossa (Mowry). 1988; 65:782 (Roentgeno-oddities)
Fracture fixation
Rigid fixation: a review of concepts and treatment of fractures (Jones and Van Sickels). 1988;65:13-8
Fracture fixation, internal
Monocortical wire osteosynthesis for the midface and lower jaw (Randzio and Spenler). 1988;65:515-8
Freeze drying
Orbital floor repair with lyophilized porcine dermis (Webster). 1988;65:161-4
Frontonasal abnormalities
Craniofrontonasal dysplasia: phenotypic expression in females and males and genetic considerations (Grutzner and Gorlin). 1988;65:436-44
Frontonasal malformation as a field defect and in syndromic associations (Sedano and Gorlin). 1988;65:704-10

Fucose
Evaluation of serum fucose level in patients with oral cancer (Ghosh et al). 1988;65:418-20

G

Gangrene
An evaluation of etiologic factors in 382 patients treated in a postgraduate endodontic program (Saad and Clem). 1988;65:91-3
Garrè's osteomyelitis
Periostitis ossificans versus Garrè's osteomyelitis. Part I: What did Garrè really say? (Wood et al). 1988;65:773-7
Gastric acid
Dental erosion and upper gastrointestinal disorders (Järvinen et al). 1988;65:298-303
Gastrointestinal diseases
Dental erosion and upper gastrointestinal disorders (Järvinen et al). 1988;65:298-303
Gastrointestinal neoplasms
Glossodynia, iron deficiency anemia, and gastrointestinal malignancy (Gallagher et al). 1988;65:130-3
Genetics
Autosomal recessive rough hypoplastic amelogenesis imperfecta: a case report with clinical, light microscopic, radiographic, and electron microscopic observations (Ooya et al). 1988;65:449-58
Bilateral mandibular hamartomas and familial natal teeth (Sigal et al). 1988;65:731-5
Craniofrontonasal dysplasia: phenotypic expression in females and males and genetic considerations (Grutzner and Gorlin). 1988;65:436-44
Giant cell tumors
Mandibular African histoplasmosis: Imitation of neoplasia or giant-cell granuloma? (Adekeye et al). 1988;65:81-4
Radiologic features, including those seen with computed tomography, of central giant cell granuloma of the jaws (Cohen and Hertzanu). 1988;65:255-61
Gingiva, abnormalities
Cyclosporine-induced gingival overgrowth: an ultrastructural stereologic study (McGaw and Porter). 1988;65:186-90
Gingival overgrowth induced by diltiazem: a case report (Bowman et al). 1988;65:183-5
Gingiva, ultrastructure
Cyclosporine-induced gingival overgrowth: an ultrastructural stereologic study (McGaw and Porter). 1988;65:186-90
Gingival diseases
Cyclosporine-induced gingival overgrowth: an ultrastructural stereologic study (McGaw and Porter). 1988;65:186-90
Gingival overgrowth induced by diltiazem: a case report (Bowman et al). 1988;65:183-5
Gingival neoplasms
A case of IgD myeloma with extraosseous spread to the gingiva (Ozaki and Yamanaka). 1988;65:726-30
The gingival biopsy in the diagnosis of thrombotic thrombocytopenic purpura (Nishioka et al). 1988;65:580-5
Glossalgia
Glossodynia, iron deficiency anemia, and gastrointestinal malignancy (Gallagher et al). 1988;65:130-3
Glossodynia; *see* **Glossalgia**
Gloves
Electric pulp testing with examination gloves (Kolbinson and Teplitsky). 1988;65:122-6
Glycosaminoglycans
The analysis of fluid aspirate glycosaminoglycans in diagnosis of the postoperative maxillary cyst (surgical ciliated cyst) (Smith et al). 1988;65:222-4
Granuloma
Oral granular cell tumors: a clinicopathologic and immunocytochemical study (Stewart et al). 1988;65:427-35
Silver accumulations in periapical granulomas: report of five cases using the scanning electron microscope, the electron microprobe, and other complementary methods (Zmener and Dominguez). 1988;65:94-100
Granuloma, giant cell
Mandibular African histoplasmosis: Imitation of neoplasia or giant-cell granuloma? (Adekeye et al). 1988;65:81-4
Radiologic features, including those seen with computed tomography, of central giant cell granuloma of the jaws (Cohen and Hertzanu). 1988;65:255-61
Gutta-percha
Complement activation as a possible in vitro indication of the inflammatory potential of endodontic materials (Serene et al). 1988;65:354-7

H

Hairy leukoplakia; *see* **Leukoplakia, oral**
Hamartoma
Bilateral mandibular hamartomas and familial natal teeth (Sigal et al). 1988;65:731-5
Hemangioma
Buccal hemangioma with phleboliths: report of two cases (Sano et al). 1988;65:151-6
Hemarthrosis
Hemophilic arthropathy of the temporomandibular joint: review of the literature, a case report, and discussion (Nishioka et al). 1988;65:145-50
Hemophilia
Hemophilic arthropathy of the temporomandibular joint: review of the literature, a case report, and discussion (Nishioka et al). 1988;65:145-50
The prevalence of AIDS-associated oral lesions in a cohort of patients with hemophilia (Bolski and Hunt). 1988;65:406-10
Hepatitis viruses, transmission
Review of hepatitis non-A, non-B: the potential hazards in dental care (Fagan et al). 1988;65:167-71
Herpes simplex
Treatment of oro-facial herpes simplex infections with acyclovir: a review (Perna and Eskinazi). 1988;65:689-92
Herpesvirus hominis
Herpes simplex virus type 1 proteins in human oral squamous cell carcinoma (Kassim and Daley). 1988;65:445-8
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15
Oral hairy leukoplakia: ultrastructural observations (Kanas et al). 1988;65:333-8
Histiocytoma
Xanthomatous lesions of the mandible: osseous expression of non-X histiocytosis and benign fibrous histiocytoma (Harsanyi and Larsson). 1988;65:551-66
Histology
Long-term evaluation of human teeth after Le Fort I osteotomy: a histologic and developmental study (Di et al). 1988;65:379-86
HIV infection; *see* **Acquired immunodeficiency syndrome**
Homosexuality
Oral candidal infection as a sign of HIV infection in homosexual men (Syrjänen et al). 1988;65:36-40
Oral Kaposi's sarcoma: a clinicopathologic study of 23 homosexual and bisexual men from the New York metropolitan area (Lumerman et al). 1988;65:711-6
Hybridization
Oral squamous papillomas: detection of HPV DNA by in situ hybridization (Eversole and Laipis). 1988;65:545-50
Hydroxylapatite
Ridge reconstruction with hydroxylapatite. Part 1: anatomy of the residual ridge (Mercier). 1988;65:505-10
Ridge reconstruction with hydroxylapatite. Part 2: ridge reconstruction based on residual anatomic structure (Mercier). 1988;65:641-52
Hydroxypropyl cellulose
Performance of hydroxypropyl cellulose film former in normal and ulcerated oral mucosa (Rodu and Russell). 1988;65:699-703

Hypophosphatemia
Structural deformities of deciduous teeth in patients with hypophosphatemic vitamin D-resistant rickets (Abe et al). 1988;65:191-8

I

Ileojejunal bypass; *see* **Jejunoileal bypass**
Image processing, computer-assisted
Digital image processing of periapical radiographs (Fujita et al). 1988;65:490-4
Imaging techniques; *see* **Diagnostic imaging**
Immunocytochemistry
Oral granular cell tumors: a clinicopathologic and immunocytochemical study (Stewart et al). 1988;65:427-35
Immunoglobulins, delta chain
A case of IgD myeloma with extraosseous spread to the gingiva (Ozaki and Yamanaka). 1988;65:726-30
Immunohistochemistry
Adenoid cystic carcinoma of the salivary glands: an immunohistochemical analysis (Chen et al). 1988;65:316-26
Malignant rhabdoid tumor of the tongue (Patron et al). 1988;65:67-70
Implants, artificial
Morphologic replication of the mandible using computerized tomography for the fabrication of a subperiosteal implant (Truitt et al). 1988;65:499-504
Incisor, abnormalities
Dental anomalies in the midline (Veno et al). 1988;65:638-9 (Roentgeno-oddities)
Indomethacin
The effect of collagen and indomethacin on inflamed dental pulp wounds of baboon teeth (Oguntebi et al). 1988;65:233-9
Infant, newborn
Bilateral mandibular hamartomas and familial natal teeth (Sigal et al). 1988;65:731-5
Infection
Facial trismus and myofascial pain associated with infections and malignant disease: report of five cases (Cohen and Quinn). 1988;65:538-44
Needle tract infection: a case report (Connor and Edelson). 1988;65:401-3
The patient with chronic renal failure who is undergoing dialysis or renal transplantation: another consideration for antimicrobial prophylaxis (Naylor et al). 1988;65:116-21
Inflammation
Complement activation as a possible in vitro indication of the inflammatory potential of endodontic materials (Serene et al). 1988;65:354-7
The effect of collagen and indomethacin on inflamed dental pulp wounds of baboon teeth (Oguntebi et al). 1988;65:233-9
Informed consent
Consent for dental therapy in severely ill patients (Friedlander et al). 1988;65:178-82
Injections
Needle tract infection: a case report (Connor and Edelson). 1988;65:401-3
Inlays
Changes in mandibular position during treatment with disk-repositioning onlays: a roentgen stereophotogrammetric study (Lundh et al). 1988;65:657-62
Innervation
Patterns of innervation of the maxillary first molar: a dissection study (Loetscher and Walton). 1988;65:86-90
Instruments
Film-holding instruments for intraoral subtraction radiography (Rudolph and White). 1988;65:767-72
Internal derangements
Bilateral internal derangements of temporomandibular joint: evaluation by magnetic resonance imaging (Sanchez-Woodworth et al). 1988;65:281-5
Intestinal bypass; *see* **Jejunoileal bypass**
Iron deficiency anemia; *see* **Anemia, hypochromic**
Irrigation
The use of ultrasonic instrumentation in the cleansing and enlargement of the root canal (Yamaguchi et al). 1988;65:349-53

J

Jaw abnormalities
Arthrogryposis multiplex congenita of the temporomandibular joint (Hodgson et al). 1988;65:289-91
Long-term prognosis for the clicking jaw (Brooke et al). 1988;65:668-70
Jaw fractures
Monocortical wire osteosynthesis for the midface and lower jaw (Randzio and Spenler). 1988;65:515-8
Rigid fixation: a review of concepts and treatment of fractures (Jones and Van Sickels). 1988;65:13-8
Jaw neoplasms
Incidence of jaw lesions in 193 patients with multiple myeloma (Lambertenghi-Deliliers et al). 1988;65:533-7
Radiologic features, including those seen with computed tomography, of central giant cell granuloma of the jaws (Cohen and Hertzanu). 1988;65:255-61
Jejunoileal bypass
Oral manifestations of oxalosis secondary to ileojejunal intestinal bypass (Lapointe and Listrom). 1988;65:76-80
Jobst dressing
A postsurgical pressure dressing technique (Ragno and Nespeca). 1988;65:165-6

K

Kidney failure, chronic
The patient with chronic renal failure who is undergoing dialysis or renal transplantation: another consideration for antimicrobial prophylaxis (Naylor et al). 1988;65:116-21
Kidney neoplasms
Clear cell sarcoma of the kidney: report of a case with mandibular metastasis simulating a benign myxomatous tumor (Florine et al). 1988;65:567-74

L

Lasers
Bone trabecular pattern analysis in Down's syndrome with the use of computed panoramic tomography with a laser scan system: quantitative analysis with the power spectrum method (Kashima et al). 1988;65:366-70
Leukemia
Changes in the oral microflora in patients with acute leukemia and related disorders during the period of induction therapy (Wahlin and Holm). 1988;65:411-7
Dentinal candidiasis in cancer patients (Damm et al). 1988;65:56-60
Leukoplakia, oral
Dyskeratosis congenita: report of a case and review of the literature (Ogden et al). 1988;65:586-91
Leukoplakia and carcinoma in situ synchronously associated with invasive oral/oropharyngeal carcinoma in Rochester, Minn., 1935-1984 (Bouquot et al). 1988;65:199-207
Oral hairy leukoplakia: ultrastructural observations (Kanas et al). 1988;65:333-8
Oral hairy leukoplakia among HIV-positive intravenous drug abusers: a clinicopathologic and ultrastructural study (Ficarra et al). 1988;65:421-6
Resolution of oral hairy leukoplakia during treatment with azidothymidine (Phelan and Klein). 1988;65:717-20
Light
Technique for using films accidentally exposed to light (Thunthy). 1988;65:371-5

Lip diseases
Actinic prurigo of the lower lip: review of the literature and report of five cases (Mounsdon et al). 1988;65:327-32
Longitudinal studies
Leukoplakia and carcinoma in situ synchronously associated with invasive oral/oropharyngeal carcinoma in Rochester, Minn., 1935-1984 (Bouquot et al). 1988;65:199-207
Long-term evaluation of human teeth after Le Fort I osteotomy: a histologic and developmental study (Di et al). 1988;65:379-86
Lupus
Circulating lupus anticoagulant in a surgical temporomandibular joint patient (Carlson and Catone). 1988;65:404-5
Lymphoma, Non-Hodgkin's
Non-Hodgkin's lymphoma: a case involving four third molar extraction sites (Griffin et al). 1988;65:671-4
Lyophilization; *see* **Freeze drying**

M

Macroglossia
Macroglossia and ankyloglossia in Beckwith-Wiedemann syndrome (Patterson et al). 1988;65:29-31
Magnetic resonance imaging
Bilateral internal derangements of TMJ evaluation by magnetic resonance imaging (Sanchez-Woodworth et al). 1988;65:281-5
The role of magnetic resonance imaging in the diagnosis and management of ameloblastoma (Heffez et al). 1988;65:2-12
Mandible
Statistical evaluation of the position of the mandibular foramen (Hetson et al). 1988;65:32-4
Mandible, abnormalities
Anomaly of the mandibular canal (Strider). 1988;65:376-7 (Roentgeno-oddities)
Osteopetrosis: a case report including gross and microscopic findings in the mandible at autopsy (Younai et al). 1988;65:214-21
Treatment of a central arteriovenous malformation of the mandible with cyanoacrylate: a 4-year follow-up (Shultz et al). 1988;65:267-71
Mandible, radiography
Changes in mandibular position during treatment with disk-repositioning onlays: a roentgen stereophotogrammetric study (Lundh et al). 1988;65:657-62
Detection of three-walled infrabony defects by subtraction radiography (Putnins et al). 1988;65:102-8
Morphologic replication of the mandible using computerized tomography for the fabrication of a subperiosteal implant (Truitt et al). 1988;65:499-504
Mandibular arch; *see* **Dental arch**
Mandibular condyle
Determination of the radiographic position of the temporomandibular joint disk (Heffez et al). 1988;65:272-80
Temporomandibular joint arthrography without fluoroscopy (Abramovitch et al). 1988;65:387-95
Mandibular diseases
Emission imaging of patients with craniomandibular dysfunction (Kircos et al). 1988;65:249-54
Mandibular neoplasms
A case of IgD myeloma with extraosseous spread to the gingiva (Ozaki and Yamanaka). 1988;65:726-30
Clear cell sarcoma of the kidney: report of a case with mandibular metastasis simulating a benign myxomatous tumor (Florine et al). 1988;65:567-74
Clinicopathologic study of cemento-osseous dysplasia producing cysts of the mandible: report of four cases (Higuchi et al). 1988;65:339-42
An evaluation of reported cases of median mandibular cysts (Gardner). 1988;65:208-13
Mandibular African histoplasmosis: Imitation of neoplasia or giant-cell granuloma? (Adekeye et al). 1988;65:81-4
Xanthomatous lesions of the mandible: osseous expression of non-X histiocytosis and benign fibrous histiocytoma (Harsanyi and Larsson). 1988;65:551-66
Masticatory muscles
Trismus caused by paradoxical activity of jaw-closing muscles in brain stem tuberculoma (Verma et al). 1988;65:675-8
Maxilla, anatomy
Patterns of innervation of the maxillary first molar: a dissection study (Loetscher and Walton). 1988;65:86-90
Maxillary neoplasms
The analysis of fluid aspirate glycosaminoglycans in diagnosis of the postoperative maxillary cyst (surgical ciliated cyst) (Smith et al). 1988;65:222-4
Maxillofacial injuries
Bone scintigraphy of vascularized bone transfer in maxillofacial surgery (Kärcher et al). 1988;65:519-22
2-Mercaptopropionylglycine
The effect of MPG on radiation-induced odontogenic tissue metaplasia (Geist et al). 1988;65:109-13
Metaplasia
The effect of MPG on radiation-induced odontogenic tissue metaplasia (Geist et al). 1988;65:109-13
Microdontia
Microdontia of a mandibular second premolar (Ufomata). 1988;65:637-8 (Roentgeno-oddities)
Microscopy, electron
Autosomal recessive rough hypoplastic amelogenesis imperfecta: a case report with clinical, light microscopic, radiographic, and electron microscopic observations (Ooya et al). 1988;65:449-58
Oral hairy leukoplakia: ultrastructural observations (Kanas et al). 1988;65:333-8
Microscopy, electron, scanning
Dentinal candidiasis in cancer patients (Damm et al). 1988;65:56-60
Silver accumulations in periapical granulomas: report of five cases using the scanning electron microscope, the electron microprobe, and other complementary methods (Zmener and Dominguez). 1988;65:94-100
Models, biologic
The effect of collagen and indomethacin on inflamed dental pulp wounds of baboon teeth (Oguntebi et al). 1988;65:233-9
Inhibition of hamster buccal pouch carcinogenesis by green coffee beans (Miller et al). 1988;65:745-9
Oral lesions in rhesus monkeys associated with infection by simian AIDS retrovirus, serotype-I (SRV-1) (Schiødt et al). 1988;65:50-5
The tissue reactions after capping of dog teeth with calcium hydroxide experimentally crammed into the pulp space (Tziafas and Molyvdas). 1988;65:604-8
Molar
Patterns of innervation of the maxillary first molar: a dissection study (Loetscher and Walton). 1988;65:86-90
Molar, third
Extraction of the third molar and patient satisfaction (Meyerowitz et al). 1988;65:396-400
Non-Hodgkin's lymphoma: a case involving four third molar extraction sites (Griffin et al). 1988;65:671-4
Monochlorophenol; *see* **2-Chlorophenol**
Mouth diseases
Eosinophilic granuloma (Duncan et al). 1988;65:736-41
Papillomaviruses: the current status in relation to oral disease (Scully et al). 1988;65:526-32
Mouth mucosa
Mouth mucosa, abnormalities
Correction of mucosal defects of periapical origin with periodontal surgical techniques (Perlmutter et al). 1988;65:592-7
Performance of hydroxypropyl cellulose film former in normal and ulcerated oral mucosa (Rodu and Russell). 1988;65:699-703
Mouth mucosa, injuries
Covert self-mutilation of oral tissues and skin by mechanical and chemical means (Barrett and Buckley). 1988;65:685-8
Mouth mucosa, pathology
Merkel cell carcinoma arising in the oral mucosa (Mir et al). 1988;65:71-5

Mouth neoplasms
Evaluation of serum fucose level in patients with oral cancer (Ghosh et al). 1988;65:418-20
Herpes simplex virus type 1 proteins in human oral squamous cell carcinoma (Kassim and Daley). 1988;65:445-8
Merkel cell carcinoma arising in the oral mucosa (Mir et al). 1988;65:71-5
Oral lesions in rhesus monkeys associated with infection by simian AIDS retrovirus, serotype-I (SRV-1) (Schidt et al). 1988;65:50-5
Oral manifestations of oxalosis secondary to ileojejunal intestinal bypass (Lapointe and Listrom). 1988;65:76-80
Papillomaviruses: the current status in relation to oral disease (Scully et al). 1988;65:526-32
The prevalence of AIDS-associated oral lesions in a cohort of patients with hemophilia (Bolski and Hunt). 1988;65:406-10
Multiple myeloma
A case of IgD myeloma with extraosseous spread to the gingiva (Ozaki and Yamanaka). 1988;65:726-30
Incidence of jaw lesions in 193 patients with multiple myeloma (Lambertenghi-Deliliers et al). 1988;65:533-7
Myofascial pain syndromes
Facial trismus and myofascial pain associated with infections and malignant disease: report of five cases (Cohen and Quinn). 1988;65:538-44
Myxoma
Clear cell sarcoma of the kidney: report of a case with mandibular metastasis simulating a benign myxomatous tumor (Florine et al). 1988;65:567-74

N

Needles
Needle tract infection: a case report (Connor and Edelson). 1988;65:401-3
Neoplasm metastasis
Clear cell sarcoma of the kidney: report of a case with mandibular metastasis simulating a benign myxomatous tumor (Florine et al). 1988;65:567-74
Lingual metastasis of alveolar soft-part sarcoma (Porter et al). 1988;65:742-4
Neoplasms, embryonal and mixed
Embryonal rhabdomyosarcoma: presentation as a parotid gland mass (Renick et al). 1988;65:575-9
Nerve fibers
Merkel cell carcinoma arising in the oral mucosa (Mir et al). 1988;65:71-5
Nose, pathology
Rhinolithiasis: a review (Appleton et al). 1988;65:693-9

O

Odontogenic tumors
The effect of MPG on radiation-induced odontogenic tissue metaplasia (Geist et al). 1988;65:109-13
Onlays; *see* **Inlays**
Oral cancer; *see* **Mouth neoplasms**
Oral diseases; *see* **Mouth diseases**
Oral manifestations
Analysis of the oral manifestations of systemic sclerosis (scleroderma) (Wood and Lee). 1988;65:172-8
Oral mucosa; *see* **Mouth mucosa**
Orbital fractures
Orbital floor repair with lyophilized porcine dermis (Webster). 1988;65:161-4
Oropharyngeal neoplasms
Leukoplakia and carcinoma in situ synchronously associated with invasive oral/oropharyngeal carcinoma in Rochester, Minn., 1935-1984 (Bouquot et al). 1988;65:199-207
Osteomyelitis
Periostitis ossificans versus Garrè's osteomyelitis. Part I: What did Garrè really say? (Wood et al). 1988;65:773-7
Osteopetrosis
Osteopetrosis: a case report including gross and microscopic findings in the mandible at autopsy (Younai et al). 1988;65:214-21
Osteoporosis
Osteoporotic bone marrow defect: radiographic features with pathogenic factors (Schneider and Fraenkel). 1988;65:127-9
Osteosynthesis; *see* **Fracture fixation, internal**
Osteotomy
Long-term evaluation of human teeth after Le Fort I osteotomy: a histologic and developmental study (Di et al). 1988;65:379-86
Relationship of mandibular anterior tooth apices to genial muscle attachments (Zhang et al). 1988;65:653-6
Ovarian cyst
Tooth in an ovarian cystic teratoma (Kitamura and Inokuchi). 1988;65:495-7 (Roentgeno-oddities)
Oxalates
Oral manifestations of oxalosis secondary to ileojejunal intestinal bypass (Lapointe and Listrom). 1988;65:76-80

P

Pain
Dental patients in a general pain clinic (McNamara and Rounsefell). 1988;65:663-7
Long-term prognosis for the clicking jaw (Brooke et al). 1988;65:668-70
Palate, abnormalities
Concurrent nasopalatine duct cyst and bilateral mesiodens (Damm et al). 1988;65:264-5 (Roentgeno-oddities)
Repair of palatal defects with unlined buccal fat pad grafts (Hai). 1988;65:523-5
Papilloma
Oral squamous papillomas: detection of HPV DNA by in situ hybridization (Eversole and Laipis). 1988;65:545-50
Papillomaviruses
Oral squamous papillomas: detection of HPV DNA by in situ hybridization (Eversole and Laipis). 1988;65:545-50
Papillomaviruses: the current status in relation to oral disease (Scully et al). 1988;65:526-32
Parotid gland
Embryonal rhabdomyosarcoma: presentation as a parotid gland mass (Renick et al). 1988;65:575-9
Parotid neoplasms
Combined CT scanning and sialography in the management of parotid tumors (Lloyd and Ho). 1988;65:142-4
Embryonal rhabdomyosarcoma: presentation as a parotid gland mass (Renick et al). 1988;65:575-9
Pathology, clinical
Oral granular cell tumors: a clinicopathologic and immunocytochemical study (Stewart et al). 1988;65:427-35
Oral hairy leukoplakia among HIV-positive intravenous drug abusers: a clinicopathologic and ultrastructural study (Ficarra et al). 1988;65:421-6
Oral Kaposi's sarcoma: a clinicopathologic study of 23 homosexual and bisexual men from the New York metropolitan area (Lumerman et al). 1988;65:711-6
Patient acceptance of health care
Extraction of the third molar and patient satisfaction (Meyerowitz et al). 1988;65:396-400
Penicillins
Prophylactic penicillin versus penicillin taken at the first sign of swelling in cases of asymptomatic pulpal-periapical lesions: a comparative analysis (Morse et al). 1988;65:228-32
Periapical diseases
Digital image processing of periapical radiographs (Fujita et al). 1988;65:490-4
Human T-lymphocyte subpopulations in periapical lesions (Barkhordar and Desouza). 1988;65:763-6
Prophylactic penicillin versus penicillin taken at the first sign of swelling in cases of asymptomatic pulpal-periapical lesions: a comparative analysis (Morse et al). 1988;65:228-32

Periapical granuloma
Silver accumulations in periapical granulomas: report of five cases using the scanning electron microscope, the electron microprobe, and other complementary methods (Zmener and Dominguez). 1988;65:94-100
Periapical tissue, abnormalities
Correction of mucosal defects of periapical origin with periodontal surgical techniques (Perlmutter et al). 1988;65:592-7
Periodontal abscess
Rhabdomyosarcoma simulating dental abscess (Leung). 1988;65:114 (Roentgeno-oddities)
Periodontal cyst
The analysis of fluid aspirate glycosaminoglycans in diagnosis of the postoperative maxillary cyst (surgical ciliated cyst) (Smith et al). 1988;65:222-4
Clinicopathologic study of cemento-osseous dysplasia producing cysts of the mandible: report of four cases (Higuchi et al). 1988;65:339-42
An evaluation of reported cases of median mandibular cysts (Gardner). 1988;65:208-13
Periodontal diseases
Clinical indicators of radiographically detectable dental diseases in the adult patient (Douglass et al). 1988;65:474-82
Periodontal surgery
Correction of mucosal defects of periapical origin with periodontal surgical techniques (Perlmutter et al). 1988;65:592-7
Periosteum
Morphologic replication of the mandible using computerized tomography for the fabrication of a subperiosteal implant (Truitt et al). 1988;65:499-504
Periostitis
Periostitis ossificans versus Garrè's osteomyelitis. Part I: What did Garrè really say? (Wood et al). 1988;65:773-7
Pharyngeal neoplasms
Leukoplakia and carcinoma in situ synchronously associated with invasive oral/oropharyngeal carcinoma in Rochester, Minn., 1935-1984 (Bouquot et al). 1988;65:199-207
Phenotype
Craniofrontonasal dysplasia: phenotypic expression in females and males and genetic considerations (Grutzner and Gorlin). 1988;65:436-44
Phlebography
Buccal hemangioma with phleboliths: report of two cases (Sano et al). 1988;65:151-6
Photogrammetry
Changes in mandibular position during treatment with disk-repositioning onlays: a roentgen stereophotogrammetric study (Lundh et al). 1988;65:657-62
Photosensitivity disorders
Actinic prurigo of the lower lip: review of the literature and report of five cases (Mounsdon et al). 1988;65:327-32
Positioning
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part II: positioning with the use of patient data (Chilvarquer et al). 1988;65:632-6
Postoperative care
A postsurgical pressure dressing technique (Ragno and Nespeca). 1988;65:165-6
Postoperative complications
The analysis of fluid aspirate glycosaminoglycans in diagnosis of the postoperative maxillary cyst (surgical ciliated cyst) (Smith et al). 1988;65.222-4
Pregnancy
Issues in dental and surgical management of the pregnant patient (Fiese and Herzog). 1988;65:292-7
Premolar; *see* **Bicuspid**
Proteins
Herpes simplex virus type 1 proteins in human oral squamous cell carcinoma (Kassim and Daley). 1988;65:445-8
Prurigo
Actinic prurigo of the lower lip: review of the literature and report of five cases (Mounsdon et al). 1988;65:327-32
Psychology
A diagnosis of AIDS: understanding the psychosocial impact (Friedlander and Arthur). 1988;65:680-4
Pulp; *see* **Dental pulp**
Pulp necrosis; *see* **Dental pulp gangrene**
Pulpitis
An evaluation of etiologic factors in 382 patients treated in a postgraduate endodontic program (Saad and Clem). 1988;65:91-3
Purpura, thrombotic thrombocytopenic
The gingival biopsy in the diagnosis of thrombotic thrombocytopenic purpura (Nishioka et al). 1988;65:580-5

R

Radiation effects
The effect of MPG on radiation-induced odontogenic tissue metaplasia (Geist et al). 1988;65:109-13
Radiographic film; *see* **X-ray film**
Radiographic image enhancement
Digital image processing of periapical radiographs (Fujita et al). 1988;65:490-4
Radiography
Accurate radiographs with intravenous sedation or general anesthesia (Wallace and Cohen). 1988;65:240-1
Autosomal recessive rough hypoplastic amelogenesis imperfecta: a case report with clinical, light microscopic, radiographic, and electron microscopic observations (Ooya et al). 1988;65:449-58
Autotransplanted teeth with early-stage endodontic treatment: a radiographic evaluation (Eliasson et al). 1988;65:598-603
A clinical comparison of xeroradiography and film radiography for the detection of proximal caries (White et al). 1988;65:242-8
A clinical comparison between xeroradiography and film radiography for the detection of recurrent caries (Gratt et al). 1988;65:483-9
Clinical indicators of radiographically detectable dental diseases in the adult patient (Douglass et al). 1988;65:474-82
Dental and mandibular arch widths in three ethnic groups in Texas: a radiographic study (Nummikoski et al). 1988;65:609-17
Detection of three-walled infrabony defects by subtraction radiography (Putnins et al). 1988;65:102-8
Determination of the radiographic position of the temporomandibular joint disk (Heffez et al). 1988;65:272-80
Digital image processing of periapical radiographs (Fujita et al). 1988;65:490-4
Film-holding instruments for intraoral subtraction radiography (Rudolph and White). 1988;65:767-72
Osteoporotic bone marrow defect: radiographic features with pathogenic factors (Schneider and Fraenkel). 1988;65:127-9
Radiographic examination of comprehensive care patients in U.S. and Canadian dental schools (Kantor). 1988;65:778-81
Radiologic features, including those seen with computed tomography, of central giant cell granuloma of the jaws (Cohen and Hertzanu). 1988;65:255-61
Radiography, panoramic
Bone trabecular pattern analysis in Down's syndrome with the use of computed panoramic tomography with a laser scan system: quantitative analysis with the power spectrum method (Kashima et al). 1988;65:366-70
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part I: description of the technique (Chilvarquer et al). 1988;65:626-31
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part II: positioning with the use of patient data (Chilvarquer et al). 1988;65:632-6
Vertical tomography of the temporomandibular joint with the use of a dental chair and intraoral x-ray unit (Ludlow). 1988;65:358-65

Radionuclide imaging
Bone scintigraphy of vascularized bone transfer in maxillofacial surgery (Kärcher et al). 1988;65:519-22
Radiotherapy
Impact of improved dental services on the frequency of oral complications of cancer therapy for patients with non-head-and-neck malignancies (Sonis and Kunz). 1988;65:19-22
Remission induction
Changes in the oral microflora in patients with acute leukemia and related disorders during the period of induction therapy (Wahlin and Holm). 1988;65:411-7
Renal failure, chronic; *see* **Kidney failure, chronic**
Reticuloendotheliosis
Multicentric reticulohistiocytosis (Katz and Anderson). 1988;65:721-5
Reticulohistiocytosis; *see* **Reticuloendotheliosis**
Retrovirus infections
Oral lesions in rhesus monkeys associated with infection by simian AIDS retrovirus, serotype-I (SRV-1) (Schiødt et al). 1988;65:50-5
Rhabdomyoma
Malignant rhabdoid tumor of the tongue (Patron et al). 1988;65:67-70
Oral granular cell tumors: a clinicopathologic and immunocytochemical study (Stewart et al). 1988;65:427-35
Rhabdomyosarcoma
Embryonal rhabdomyosarcoma: presentation as a parotid gland mass (Renick et al). 1988;65:575-9
Rhabdomyosarcoma simulating dental abscess (Leung). 1988;65:114 (Roentgeno-oddities)
Rickets, vitamin D resistant
Structural deformities of deciduous teeth in patients with hypophosphatemic vitamin D-resistant rickets (Abe et al). 1988;65:191-8
Roentgeno-oddities
Roentgeno-oddities. 1988;65:114, 262-5, 376-7, 495-7, 637-9, 782-3
Root canal filling materials
A comparative tissue toxicity evaluation of established and newer root canal sealers (Yesilsoy et al). 1988;65:459-67
Cyanoacrylate as a retrofilling material (Barkhordar et al). 1988;65:468-73
Root canal irrigants
The use of ultrasonic instrumentation in the cleansing and enlargement of the root canal (Yamaguchi et al). 1988;65:349-53
Root canal therapy
Clinical and laboratory assessments of camphorated monochlorophenol in endodontic therapy (Koontongkaew et al). 1988;65:757-62
Root resorption
Multiple idiopathic external root resorption: a case report (Pankhurst et al). 1988;65:754-7
Rubella syndrome, congenital
Duplication of mental nerve in a patient with cleft lip-palate and rubella syndrome (Goodday and Precious). 1988;65:157-60

S

Sagittal computerized tomography; *see* **Tomography, x-ray computed**
Salivary gland neoplasms
Adenoid cystic carcinoma of the salivary glands: an immunohistochemical analysis (Chen et al). 1988;65:316-26
Oncocytic adenocarcinoma of salivary glands (Goode and Corio). 1988;65:61-6
Sarcoma
Clear cell sarcoma of the kidney: report of a case with mandibular metastasis simulating a benign myxomatous tumor (Florine et al). 1988;65:567-74
Lingual metastasis of alveolar soft-part sarcoma (Porter et al). 1988;65:742-4
Sarcoma, Kaposi's
Oral Kaposi's sarcoma: a clinicopathologic study of 23 homosexual and bisexual men from the New York metropolitan area (Lumerman et al). 1988;65:711-6
Schools, dental
Survey of tissue-diagnostic services in United States dental schools—1985 (Miller and Fantasia). 1988;65:225-7
Scintigraphy; *see* **Radionuclide imaging**
Scleroderma, systemic
Analysis of the oral manifestations of systemic sclerosis (scleroderma) (Wood and Lee). 1988;65:172-8
Sclerosis
Analysis of the oral manifestations of systemic sclerosis (scleroderma) (Wood and Lee). 1988;65:172-8
Self-mutilation
Covert self-mutilation of oral tissues and skin by mechanical and chemical means (Barrett and Buckley). 1988;65:685-8
Septicemia
Bacteremia following intraoral suture removal (King et al). 1988;65:23-8
Sialography
Combined CT scanning and sialography in the management of parotid tumors (Lloyd and Ho). 1988;65:142-4
Silver
Silver accumulations in periapical granulomas: report of five cases using the scanning electron microscope, the electron microprobe, and other complementary methods (Zmener and Dominguez). 1988;65:94-100
Skin, injuries
Covert self-mutilation of oral tissues and skin by mechanical and chemical means (Barrett and Buckley). 1988;65:685-8
Spectrum analysis
Bone trabecular pattern analysis in Down's syndrome with the use of computed panoramic tomography with a laser scan system: quantitative analysis with the power spectrum method (Kashima et al). 1988;65:366-70
Statistics
Statistical evaluation of the position of the mandibular foramen (Hetson et al). 1988;65:32-4
Stereophotogrammetry; *see* **Photogrammetry**
Substance abuse
Dental management of the cocaine addict (Friedlander and Gorelick). 1988;65:45-8
Oral hairy leukoplakia among HIV-positive intravenous drug abusers: a clinicopathologic and ultrastructural study (Ficarra et al). 1988;65:421-6
Substance dependence
Dental management of the cocaine addict (Friedlander and Gorelick). 1988;65:45-8
Subtraction technique
Detection of three-walled infrabony defects by subtraction radiography (Putnins et al). 1988;65:102-8
Film-holding instruments for intraoral subtraction radiography (Rudolph and White). 1988;65:767-72
Sunlight
Technique for using films accidentally exposed to light (Thunthy). 1988;65:371-5
Sutures
Bacteremia following intraoral suture removal (King et al). 1988;65:23-8
Syndrome
Frontonasal malformation as a field defect and in syndromic associations (Sedano and Gorlin). 1988;65:704-10

T

T lymphocytes
Human T-lymphocyte subpopulations in periapical lesions (Barkhordar and Desouza). 1988;65:763-6
Temporal bone
Unusual object in the infratemporal fossa (Mowry). 1988;65:782 (Roentgeno-oddities)

Temporomandibular joint, abnormalities
Arthrogryposis multiplex congenita of the temporomandibular joint (Hodgson et al). 1988;65:289-91
Diagnostic arthroscopy of the temporomandibular joint. Part II: arthroscopic findings of arthrographically diagnosed disk displacements (Blaustein and Heffez). 1988;65:135-41
Long-term prognosis for the clicking jaw (Brooke et al). 1988;65:668-70
Temporomandibular joint, radiography
Bilateral internal derangements of temporomandibular joint: evaluation by magnetic resonance imaging (Sanchez-Woodworth et al). 1988;65:281-5
Determination of the radiographic position of the temporomandibular joint disk (Heffez et al). 1988;65:272-80
Double-contrast arthrography of the temporomandibular joint: role of direct sagittal CT imaging (Heffez et al). 1988; 65:511-4
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part I: description of the technique (Chilvarquer et al). 1988;65:626-31
A new technique for imaging the temporomandibular joint with a panoramic x-ray machine. Part II: positioning with the use of patient data (Chilvarquer et al). 1988;65:632-6
Temporomandibular joint arthrography without fluoroscopy (Abramovitch et al). 1988;65:387-95
Vertical tomography of the temporomandibular joint with the use of a dental chair and intraoral x-ray unit (Ludlow). 1988;65:358-65
Temporomandibular joint, surgery
Circulating lupus anticoagulant in a surgical temporomandibular joint patient: report of a case (Carlson and Catone). 1988;65:404-5
Temporomandibular joint diseases
Changes in mandibular position during treatment with disk-repositioning onlays: a roentgen stereophotogrammetric study (Lundh et al). 1988;65:657-62
Hemophilic arthropathy of the temporomandibular joint: review of the literature, a case report, and discussion (Nishioka et al). 1988;65:145-50
Teratogens
Issues in dental and surgical management of the pregnant patient (Fiese and Herzog). 1988;65:292-7
Tomography
Vertical tomography of the temporomandibular joint with the use of a dental chair and intraoral x-ray unit (Ludlow). 1988;65:358-65
Tomography, emission computed
Emission imaging of patients with craniomandibular dysfunction (Kircos et al). 1988;65:249-54
Tomography, x-ray computed
Bone trabecular pattern analysis in Down's syndrome with the use of computed panoramic tomography with a laser scan system: quantitative analysis with the power spectrum method (Kashima et al). 1988;65:366-70
Combined CT scanning and sialography in the management of parotid tumors (Lloyd and Ho). 1988;65:142-4
Double-contrast arthrography of the temporomandibular joint: role of direct sagittal CT imaging (Heffez et al). 1988; 65:511-4
Morphologic replication of the mandible using computerized tomography for the fabrication of a subperiosteal implant (Truitt et al). 1988;65:499-504
Radiologic features, including those seen with computed tomography, of central giant cell granuloma of the jaws (Cohen and Hertzanu). 1988;65:255-61
The role of magnetic resonance imaging in the diagnosis and management of ameloblastoma (Heffez et al). 1988;65:2-12
Vertical tomography of the temporomandibular joint with the use of a dental chair and intraoral x-ray unit (Ludlow). 1988;65:358-65
Tongue
Macroglossia and ankyloglossia in Beckwith-Wiedemann syndrome (Patterson et al). 1988;65:29-31
Tongue neoplasms
Malignant rhabdoid tumor of the tongue (Patron et al). 1988;65:67-70
Tonsil
Tonsillolith (Westmore and Hupp). 1988;65:783 (Roentgeno-oddities)
Tooth, analysis
Long-term evaluation of human teeth after Le Fort I osteotomy: a histologic and developmental study (Di et al). 1988;65:379-86
Tooth, deciduous
Structural deformities of deciduous teeth in patients with hypophosphatemic vitamin D-resistant rickets (Abe et al). 1988;65:191-8
Tooth in an ovarian cystic teratoma (Kitamura and Inokuchi). 1988;65:495-7 (Roentgeno-oddities)
Tooth abnormalities
Concurrent nasopalatine duct cyst and bilateral mesiodens (Damm et al). 1988;65:264-5 (Roentgeno-oddities)
Dental anomalies in the midline (Veno et al). 1988;65:638-9 (Roentgeno-oddities)
Microdontia of a mandibular second premolar (Ufomata). 1988;65:637-8 (Roentgeno-oddities)
Tooth erosion
Dental erosion and upper gastrointestinal disorders (Järvinen et al). 1988;65:298-303
Tooth extraction
Extraction of the third molar and patient satisfaction (Meyerowitz et al). 1988;65:396-400
Non-Hodgkin's lymphoma: a case involving four third molar extraction sites (Griffin et al). 1988;65:671-4
Tooth fractures
Mesiodistal root fracture: three case reports (Barkhordar et al). 1988;65:343-8
Tooth replantation
Autotransplanted teeth with early-stage endodontic treatment: a radiographic evaluation (Eliasson et al). 1988;65:598-603
Tooth root
Relationship of mandibular anterior tooth apices to genial muscle attachments (Zhang et al). 1988;65:653-6
Total body irradiation; *see* Whole body irradiation
Toxicology
A comparative tissue toxicity evaluation of established and newer root canal sealers (Yesilsoy et al). 1988;65:459-67
Trabecular meshwork
Bone trabecular pattern analysis in Down's syndrome with the use of computed panoramic tomography with a laser scan system: quantitative analysis with the power spectrum method (Kashima et al). 1988;65:366-70
Transplantation, autologous
Autotransplanted teeth with early-stage endodontic treatment: a radiographic evaluation (Eliasson et al). 1988;65:598-603
Bone scintigraphy of vascularized bone transfer in maxillofacial surgery (Kärcher et al). 1988;65:519-22
Repair of palatal defects with unlined buccal fat pad grafts (Hai). 1988;65:523-5
Transplantation, heterologous
Orbital floor repair with lyophilized porcine dermis (Webster). 1988;65:161-4
Transplantation, homologous
Disturbances in dental development after total body irradiation in bone marrow transplant recipients (Dahllöf et al). 1988; 65:41-4
The patient with chronic renal failure who is undergoing dialysis or renal transplantation: another consideration for antimicrobial prophylaxis (Naylor et al). 1988;65:116-21
Trismus
Facial trismus and myofascial pain associated with infections and malignant disease: report of five cases (Cohen and Quinn). 1988;65:538-44
Trismus caused by paradoxical activity of jaw-closing muscles in brain stem tuberculoma (Verma et al). 1988;65:675-8
Tuberculoma
Trismus caused by paradoxical activity of jaw-closing muscles in brain stem tuberculoma (Verma et al). 1988;65:675-8

Tuberculosis
Massive calcification following tuberculosis (Wright). 1988; 65:262-4
Tumor cell, cultured
Monoclonal antibodies to HSV-infection-related antigens cross-react with tumor cell lines and tumor tissue sections (Eskinazi and Cantin). 1988;65:308-15

U

Ulcer
Performance of hydroxypropyl cellulose film former in normal and ulcerated oral mucosa (Rodu and Russell). 1988;65:699-703
Ultrasonics
The use of ultrasonic instrumentation in the cleansing and enlargement of the root canal (Yamaguchi et al). 1988; 65:349-53

V

Vitamin D
Structural deformities of deciduous teeth in patients with hypophosphatemic vitamin D-resistant rickets (Abe et al). 1988;65:191-8

W

Whole body irradiation
Disturbances in dental development after total body irradiation in bone marrow transplant recipients (Dahllöf et al). 1988;65:41-4
Wires; *see* **Bone wires**

X

Xanthomatosis
Xanthomatous lesions of the mandible: osseous expression of non-X histiocytosis and benign fibrous histiocytoma (Harsanyi and Larsson). 1988;65:551-66
Xenograft; *see* **Transplantation, heterologous**
Xeroradiography
A clinical comparison between xeroradiography and film radiography for the detection of recurrent caries (Gratt et al). 1988;65:483-9
A clinical comparison of xeroradiography and film radiography for the detection of proximal caries (White et al). 1988; 65:242-8
Use of a "sandwich" technique to control image geometry in clinical studies comparing intraoral xeroradiographs and E-speed films (Ludlow et al). 1988;65:618-25
X-ray film
A clinical comparison of xeroradiography and film radiography for the detection of proximal caries (White et al). 1988; 65:242-8
Film-holding instruments for intraoral subtraction radiography (Rudolph and White). 1988;65:767-72
Technique for using films accidentally exposed to light (Thunthy). 1988;65:371-5
Use of a "sandwich" technique to control image geometry in clinical studies comparing intraoral xeroradiographs and E-speed films (Ludlow et al). 1988;65:618-25
Vertical tomography of the temporomandibular joint with the use of a dental chair and intraoral x-ray unit (Ludlow). 1988;65:358-65
